This is an authentic LIKE NEW CONDITION Coach Purse that I purchased right from the site. It looks like they don't carry it anymore already.

Offers accepted.

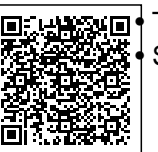

I put some items in this purse, but then never ended up even using it. I just have too many purses and need to start downsizing!

The first picture is a stock pic from Coach. It shows a better representation of the color than the pictures I took. It really isn't as sparkly as it looks.

The chain moves through so you can have it be a short strap or an over the shoulder strap.

Here are the details:

- Leather
- Color: Metallic Graphite
- Turned in
- Strap drop for over the shoulder wear
